

Personalizing Chiron (with Zane B. Stein)

In this workshop, Zane will give you a thorough grounding in the essence of Chiron, and then will make it PERSONAL.

He will introduce the basic chart of the ancients as a foundation, build upon the foundation with Uranus, Neptune and Pluto, and then introduce Chiron to show how it pulls everything together. Examples of Chiron in the charts of celebrities will show you Chiron in real-life situations, one for each Chiron house and sign position.

And then, if you have provided your chart data in advance of the workshop, comes the most exciting part of the day, when Zane will tell you something about your personal Chiron position.

Zane resides in the USA, but is known for his pioneering research into Chiron, as well as for his research into many other newly discovered bodies such as Eris.
